Assignment-2

Course: Computer Graphics Lab
Semester: B.C.S.E. Third Year

Objective:
Implement a circle drawing algorithm to draw a circle with a given radius in the raster grid using a) Polar b) Bresenham's Midpoint c) Cartesian circle drawing algorithm. Show Eight points symmetry using animation and check execution time.

Submission Guidelines:

- Submit your entire Qt project folder.
- Include an assignment report.

Submission Deadline:

- Submission Deadline for Group (A1): 18/08/2026
- Submission Deadline for Group (A2): 20/08/2026
- Submission Deadline for Group (A3): 21/08/2026
