Assignment-5

Course: Computer Graphics Lab
Semester: B.C.S.E. Third Year

Objective:

Draw a closed polygon and implement different transformation functions (with respect to origin) on it.

- **a) translation**
- **b) rotation**
- **c) scaling**
- **d) shear**
- **e) reflection with respect to x/y axes**

Extend the algorithm to apply the transformations successively on the same object using homogeneous coordinates and matrix multiplication.

- **f) reflection with respect to arbitrary line**
- **g) rotation with respect to arbitrary point**

Submission Deadline:

- Submission Deadline for Group**(A1)**: **08/09/2026**
- Submission Deadline for Group**(A2)**: **10/09/2026**
- Submission Deadline for Group**(A3)**: **11/09/2026**
